REFERENCES

"Tom cares. As a one of a kind leader, he has an extraordinary understanding of how things and people work.."

- Tony Cannella, Product Owner, Intelligent Trading

"Tom has incredible personal, leadership and technical skills. Working with him means having a solid support, a fun and challenging environment and continuous growth."

- Francesco DeLisi, Senior Backend Engineer, Intelligent Trading, remote employee

"...[He] worked effectively with tech and business teams and deployed systems that were fast and scalable. The products he built were instant hits with our customers and lead to new ideas for systems that would transform the company further." - Rupert Lane, Engineering Manager, Agoda (Booking.com), direct report

"Tom builds Python backends like 10x faster than any programmer I've seen."

- Karla Brkic PhD, Data Scientist, Bemmerse
